The table above presents figures taken directly from the language of the appropriation bills that fund current Program Year 2010 activities (The Fiscal Year 2010 Appropriations Bill PL111-117) and HR1473 currently under consideration to fund Program Year 2011 activities. For simplicity, this table only includes the main provisions of WIA effecting local workforce areas and other pertinent appropriations (YouthBuild) necessary for comparison purposes.

Parallels between the bills are confusing because of structural differences. The Program Year 2010 appropriations bill PL111-117 enumerates total funding (**Column B** above) through two separate allocations each for adult and for dislocated worker activities as found in Division D sections (1)(A) and (C) of the bill.

The first available 7/1/10 (**Column C** above) and the second available 10/1/10 (**Column D** above). HR 1473 proposed to fund Fiscal Year 2011 (10/1/2010-9/30/2011) covering WIA PY2011(7/1/2011-6/30/2011 – accept as noted for Youth), identifies the first allocation available July 1, 2011 in section 1801 (a) (1) of the Act (**Column F** above) and the balance through section 1101(6) which references to the amount found in the previous year’s appropriation bill PL111-117 (Shown in **Column G**). The total of these two amounts comprise the full Fiscal Year 2011 appropriation, and provides the total funding available for PY2011(7/1/11 – 6/30/12 youth exception noted) (see **Column E** above). *These amounts prior to the .2% rescission calculation.*
